## **Professional Data Services (PDS) Wins Highest Level in Practice Partner Sales Contest**

**Professional Data Services, a McKesson Clinical Value Added Reseller, wins the Platinum/Diamond level for high sales volume for McKesson's (MCK) Practice Partner Electronic Health Records in the 1st quarter of 2010.**

June 15, 2010 – Hutchinson, KS – Professional Data Services, Inc. (PDS) a leading medical practice management software company and award winning reseller of McKesson Practice Partner electronic health records (EHR), was awarded the top sales level for Electronic Health Record sales for the first quarter of 2010.

Russ Wedel, Sales Manager of PDS indicated that “Medical practices want to get a head start on implementing Electronic Medical Records to meet Meaningful Use requirements as proposed by the Stimulus Plan. For the past 38 years, physicians from rural health clinics to large urban settings have looked to PDS as a trusted advisor to provide guidance in the always changing medical industry. “

Gary Hobbs, President of PDS said that “Winning this award demonstrates PDS’ commitment to McKesson Practice Partner, an industry leading EHR, and the consistency we provide to new and existing customers. Our team is second to none on listening to the needs and concerns of medical practices of all sizes as they navigate the transition from paper to electronic records. Everyone at PDS in each of our seven locations across the country, are ecstatic and pleased on winning this award.”

### **About PDS**

PDS provides over 35 years of experience with medical practice management and electronic health record solutions for practices at all levels. PDS Cortex, a multi-component medical office management program, gives greater efficiencies in managing patient information, insurance, collections, coding and more. Combining PDS Cortex with McKesson’s Practice Partner (EHR) equips practices with a robust, seamless system that covers everything from the care of patients to the business of cash flow.
